

I am a citizen/taxpayer who wants to continue to be free from the intrusion of telephone solicitors. Indiana's Telephone Privacy law should not be changed. I ask the FCC to disapprove any change to this law brought forth by the Consumer Bankers Association. I have written my bank and asked that they stop their challenge to the Indiana Telephone Privacy law. Any entity that has an established business relationship with me can send me a letter. They should not be allowed to interrupt my private life by calling me on the phone!
